ARTWORK TEMPLATE

Showcurve Lite Pop-Up Displays

pop up curved single sided 3x3

01 Match your order

Check the exact size, orientation and configuration before designing. This pack is for the product named above.

02 Use the original-size guide pages

The following guide pages retain their production dimensions and scale. Follow the scale printed on each guide. Do not fit them to A4 or enlarge them automatically.

03 Extend backgrounds into bleed

Follow the bleed, cut, finishing and safe-area lines on the guide. Keep logos and important wording inside the safe area. Hardware pockets and hidden areas are not visible print space.

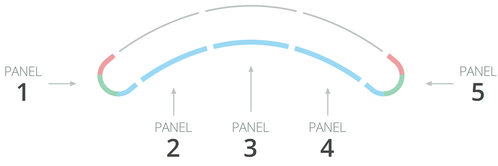

04 Export your artwork only

Remove guide lines and instructions from your print file. Supply a print-ready PDF with embedded images and outlined fonts. Screen previews are not colour proofs.

05 Need artwork produced?

Add the design and artwork service for £45 + VAT (£54 including VAT) per product design. We will email a proof for approval before printing.

3×3 CURVED POP-UP
SINGLE-SIDED

Size

This template is 100% scale of full size, and must not be re-sized or scaled.

Artwork Sections

This area is on the back of the unit. Avoid placing any text/logos or important design elements in this area.

This area is the side of the end panel (which curves). Logos or text can be placed here, but be aware that this will not be visible while standing in front of the unit.

This is the area where text is viewable while standing in front of the unit, beyond this area the text will start to curve and may not be legible.

Bleed line
Artwork must extend to this line.

Finished line
Approximate perimeter of the finished graphic.

Layers

Please note, this template contains a locked layer that is set to be non-printing. Any artwork elements that are put on this layer will not be included in exported PDFs, and will not be printed. Please check your exported artwork before sending it to us.

Design. Must be used to create and supply your design.

🔒 **Guide (Non-Printing).** Must not contain any of your design elements. May be deleted, if desired.

Artwork Requirements

Artwork must be supplied:

- At the exact size of this template
- With all fonts outlined
- With all images embedded
- With all design elements on the Design layer
- With background/quiet content all the way to the bleed line(s)
- With all important content inside the safe area(s)
- With none of the template guide lines included or flattened
- With all template elements and text removed
- With no crop marks, bleed marks, colour bars or other registration marks present
- As either PDF (preferred), AI or EPS format
- With exported files checked (e.g. in Adobe Acrobat/Reader) that all design elements are included

For a full list of artwork requirements, please refer to our website.

Considerations

The vertical guides indicate the splits between panels. It's recommended to minimise the amount of text that crosses over the splits.

Please be aware that each end panel curves around the side of the unit and create your design accordingly. See the overhead illustration for positions of each panel.
